

## Topics for Columbia Meeting

**Ben Cope** to: Laurie Mann, David Croxton

08/30/2007 03:14 PM

L and D -

I think I was dreaming about a list I had previously developed. Can't find it. But see attached for an opening idea for an outline for the meeting.

Starts with general overview of TMDL, then jumps right into the "gist" (what everybody cares about, which is what can and cannot be done for temperature), then concerns about TMDL nuts-and-bolts. Finally, open discussion on options moving forward including our idea to break the TMDL into pieces, run a parallel TMDL/UAA, etc..
